

The drawing shows a vertical cross-section of a pavement structure. From top to bottom, the layers are: a thin surface layer (3-3mm), a thicker layer of polyurethane (10-11mm), a layer of gravel (1-2cm), a layer of coarse aggregate (0-31,5, 8cm), a layer of coarse aggregate (31,5-63mm, 10cm), and a base layer of sand/grit (20cm). The layers are separated by horizontal lines, and the gravel and aggregate layers have a stippled texture. The drawing is enclosed in a rectangular frame.

Nawierzchnia narzysk 3–3mm
Lepiszczed poliuretanowe 10–11mm
Miał kamienny 0–4mm, 1–2cm
Warstwa górna kruszywa 0–31,5, 8cm
Warstwa dolna kruszywa 31,5– 63mm, 10cm
Piasek / pospółka 20cm
